ONE BATTERY, LOTS OF POSSIBILITIES

The 18 V system means power, freedom and savings!

This series of YATO cordless tools is powered by the same type of heavy-duty 18 V battery and thanks to their extensive selection you can equip a professional workshop, as well as take care of your home and garden. These devices are available in two versions: in a set with batteries and quick charger or without them, which is a perfect solution if you are expanding your collection of tools

Cutting chains

Intended for household and professional use – perfect for gardening works and professional processing of clean or moderately soiled wood. They are compatible with petrol chainsaws and electric chainsaws of various manufacturers.

- *the vibration dampening system reduces vibrations by 25% and ensures comfortable operation thanks to not transferring the vibrations from the chain to the guide*
- *reduction of kickback thanks to specially designed links increases work safety*

Chain guides

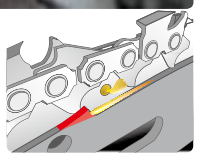

Intended for household and professional use – perfect for works around the house and in the garden, as well as for woodcutting. They are compatible with petrol chainsaws and electric chainsaws coming from various manufacturers.

- *star-shaped ending fixed by means of 4 rivets ensures high precision of assembly and increases durability of the guide*
- *roller bearing ensures precise leading of the chain, minimising the resistance while working*
- *manganese steel increases resistance of the guide to abrasion and overheating, extending its lifetime*
- *lubrication system with oil container distributes the oil uniformly along the whole chain length*
